IOSH Fire Safety for Managers

Introduction

The Institution of Occupational Safety and Health (IOSH) is Europe's leading body for health and safety and is committed to promoting protection from workplace hazards at every level. The Fire Safety for Managers certificate issued by IOSH is recognised nationally and worldwide and identifies the holder as having been instructed in proactive approaches to managing day-to-day fire safety within their organisation.

The course covers the basics in fire safety management in a high impact interactive format, whilst giving management the tools to introduce new workplace controls, implement sensible changes and reduce workplace risks.

Course Duration

IHTC Ltd offer this course over one day.

Who Should Attend

Fire Safety for Managers is for any person within an organisation, supervisor, team leader, head of department, manager who has responsibilities in any sector, and any organisation. It is designed to give knowledge and the tools to tackle the relevant fire safety issues they are responsible for. Fire Safety for Managers makes a powerful case for fire safety being an integral part of day-to-day management and business, rather than being a bolt on, sometimes thought about.

Course Programme

Module 1: Employers Responsibilities
Module 2: Fire and Fire Safety Measures
Module 3: Assessing Fire Risks
Module 4: Creating a Fire Safety Culture
Practical tour of client's premises highlighting Fire Safety elements to embed understanding

Certification and Assessment

On course completion, delegates will undertake a short assessment. Assessments are carried out throughout the course and all delegates who successfully complete this course are issued with an IOSH certificate.

Suggested Follow on and Complementary Courses

IOSH Managing Safely, DSE Assessors, Fire Warden/Marshal Instructors, Risk Assessment, CoSHH Assessment, Manual Handling Assessment
