

NOCN Level 3 CoSHH Assessor

The NOCN accredited Level 3 CoSHH Assessor course is specifically designed for individuals who supervise, lead and maintain storage/use of any CoSHH related products across any sector.

Over a 3 day period, delegates will build an understanding of the legal and regulatory requirements of CoSHH, including the identification of hazards, GHS hazard symbols and appropriate use of control measures. Delegates will be guided through the process of completing CoSHH Assessments and Risk Assessments as well as gaining further insight into the management of other specific hazardous agents which may be encountered in the workplace.

Course Duration

IHTC Ltd offer this course over three days.

Who Should Attend?

This qualification is ideal for individuals with responsibility to supervise, lead and maintain storage/use of any CoSHH related products in the workplace and will aid them to instil good practises within their teams.

Course Programme

Delegates will gain an understanding of:

- The legal and regulatory requirements of CoSHH
- How to identify substances hazardous to health
- How to identify and use the CoSHH hierarchy of control measures
- The use of GHS hazard symbols
- How to complete CoSHH Assessments and Risk Assessments accurately
- Specific hazardous agents and their management in the workplace

Training is delivered through a combination of theory sessions and practical exercises.

Certification and Assessment

A written and multiple choice, theory assessment and a practical CoSHH Assessment exercise will be completed on day three. Successful delegates will receive an NOCN accredited certificate.
